Overview

This project saw Carmelcrest remodel and refurbish the entirety of the Mount Browne Police HQ, a listed building. New spaces created include office space, reception areas, kitchen and meeting spaces.

Works were carried out whilst the Police HQ was occupied. Therefore, we operated a flexible approach to ensure day-to-day activities of the HQ were not disrupted. Maintaining security and discretion on the project at all times was critical to the successful delivery.

Key Aspects

- Live Blue Light environment working
- DBS & NPPV Level 2 Checked workforce
- Working within listed building
- Internal refurbishment across multiple floors
