## Overview

Fight for Peace Academy is a Charitable Trust that combines martial arts with education and personal development to realise the potential of young people in communities affected by crime, violence and social exclusion.

Carmelcrest were appointed to construct a single storey link building at their facility in Newham. The extra space created new reception and training areas.

Carmelcrest Designed & Constructed all aspects of the project, everything from the flat roof, cavity wall construction building fabric, to the extensive Mechanical & Electrical fixtures and Air Handling Units.

## Key Aspects

- Building occupied, worked closely with client to ensure minimal disruption
- DBS checked workforce
- Complex construction method, restricted by minimal courtyard access
- Design & Build
